Verbal Description

Candela fragment. 2 chambers visible. Chambers are totally bent from the interior, but although a bit of the base is visible, this piece has no top. The base thickness is 0.3 cm. The chambers go all the way down to the base. The exterior of the Candela is unslipped - it looks a bit smoothed over. There is no paint, slip is decorative. It looks like there is no firing cone. Chamber diameters approx 1.1 cm
